Thank you!
The SP Driver Training Team

I am going to compose 2 email now. One template for the student who is doing the Graduate certificate program, another template for the other students. In both email the student id need to be appear. Because all the students will have access to some exercises (google form) and they need to write their student name so you can fetch data at the end.

For the certificate program, with registration $250 is due. For other students, $100. Should we send another email about this or we can add this with the welcome email.

Sometimes in my experience, I've seen people don't read the email. So I think it's better to send another email.

02. Data download:

It is mainly show up in the main dashboard from the google excel file

03. Email for money:

For certificate program, 10.5 hrs is included in the package. Once they are over the hours and if the balance is due, i would like to send an email right away, (after we are update the lesson)so that they would know how many hours they have done and what's the balance on the account.

For the other students: when they sign up, $100 would be due. That would be equivalent as 2 lessons. $50 per hour. Once the hours are done, then need to receive the mail too.

04. Lesson planner:

2022-03-15

- Fixed responsive design
- fixed student number issue on home page
- updated lesson plan and added additional information under Exam Date

For certificate program, they will be eligible for road test after 8 months + 1 day of their permit. 10.5 hrs will be divided into 6 lesson. I want to schedule the lesson as below:

(you need to start from the lesson 6 to write the code easily I think)

Lesson 1: 1.5 hrs (the day before of lesson # 2)

Lesson 2: 1.5 hrs (2 days the day before of lesson #3)

Lesson 3: 1.5 hrs (2 days before of lesson #4)

Lesson 4: 1.5 hrs (the day before of lesson #5)

Lesson 5: 1.5 hrs (the day before of lesson #6)

Lesson 6 and road test: 3 hrs (8 months + 1 day)

But if someone got license from home, then they dont have to wait 8 months . If someone got the license from home, there exam will be scheduled after 3 weeks + 1 day

Lesson Planner for Graduate Certificate

Lesson Planner

Learners Permit No: K880233014

Learners Issue Date: 2020/09/08

Exam Date: 2021/05/10
(8 months and a day after Issue date)

Package: Graduate Certificate Program (25 hrs in class and 10.5hrs on road)

Lesson Plan:
Lesson 1 (1.5 hrs) :2021/04/29
Lesson 2 (1.5 hrs) :2021/04/30
Lesson 3 (1.5 hrs) :2021/05/04
Lesson 4 (1.5 hrs) :2021/05/06
Lesson 5 (1.5 hrs) :2021/05/07
Lesson 6 & road test (3 hrs) : 2021/05/10

Lesson Planner for Popular Certificate

Lesson Planner

Learners Permit No: K1234578898

Learners Issue Date: 2022/03/02

Exam Date: 2022/03/24
(3 weeks and 1 day after Issue date)

Package: Popular Package (6hrs of lessons and road test)

Lesson Plan:
Lesson 1 (1.5 hrs) :2022/03/18
Lesson 2 (1.5 hrs) :2022/03/22
Lesson 3 (1.5 hrs) :2022/03/23
Lesson 4 & road test (1.5 hrs) : 2022/03/24

Road Test Eligibility Report (will replace Road Test Eligibility in backend)

Road Test Eligibility		
Filters:	Previous Road test Result	Failed / Not appeared yet
	User	Student List
	Package	Course Package
	Eligibile Since	Date Filter

Report

Student Number	User	Learner's Issue Date	License from Home	Package	Road test Eligible Date	Previous Road test Result	Lesson 1 (1.5 hrs)	Lesson 2 (1.5 hrs)	Lesson 3 (1.5 hrs)	Lesson 4 (1.5 hrs)	Lesson 5 (1.5 hrs)	Lesson 6 (1.5 hrs)

OR google sheet version:
https://docs.google.com/spreadsheets/d/1fhWzCsD5vYlg3jf-PV5MfjhiJXvnSyP6WOzr6QGCRf8/edit?usp=sharing

05. User Profile:

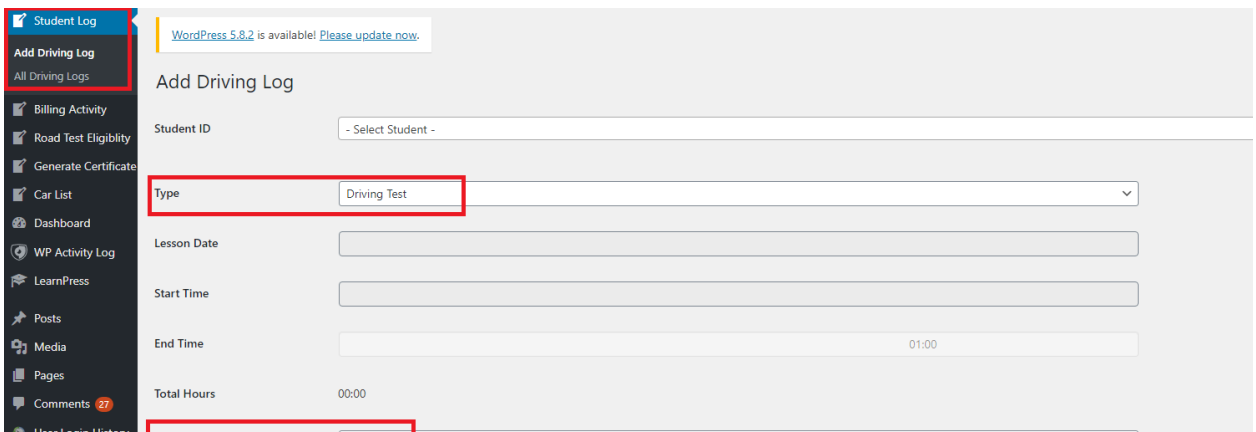
where my name is written (instructor), can you resize the box. So that there will be enough space for the first box.

- **Can't resize box because it is WP default**

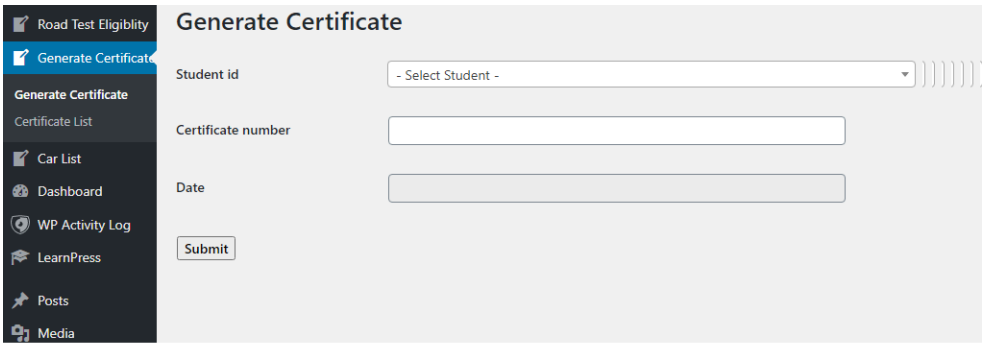
06. Add student driving log:

This is how I add log of students, which date, how many hours they have done. Under type, when I select "Driving Test" then the option came up if they have passed or fail.

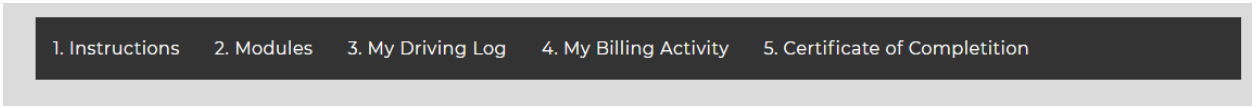
I would like to see list of this filter (some where maybe on the left side back bar) so that it would be easy for me to schedule student's road test appointment. If someone appear for the test and fail, they need to wait 1 week before the next road test. They are my priority rather than taking new students for the road test.



07. Create certificate for students:



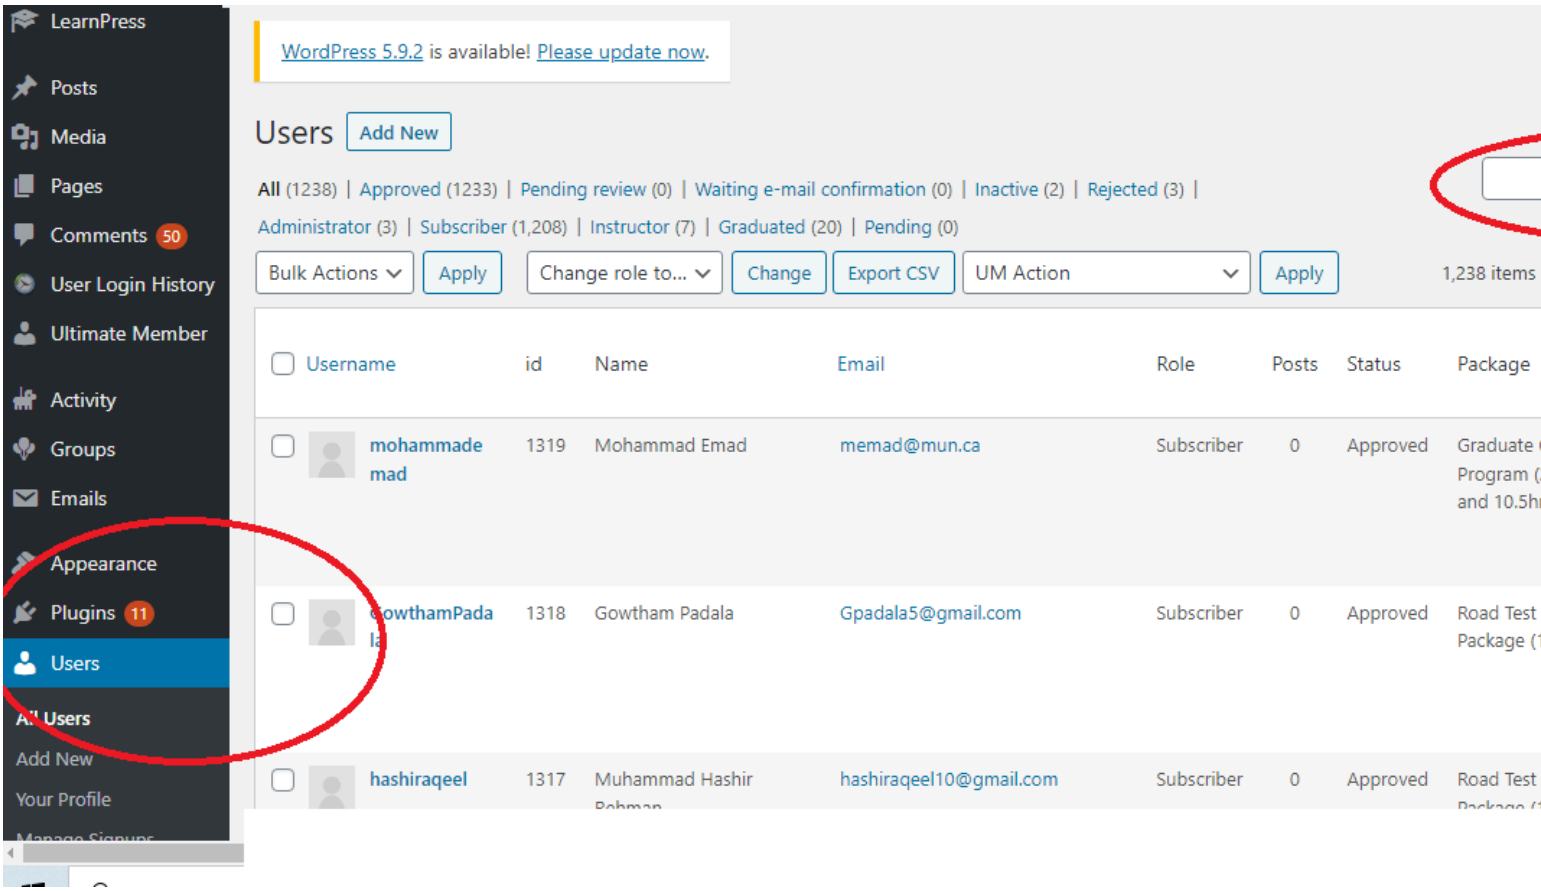
When I create the certificate, it shows up on student's profile under tab#5 Certificate of competition.



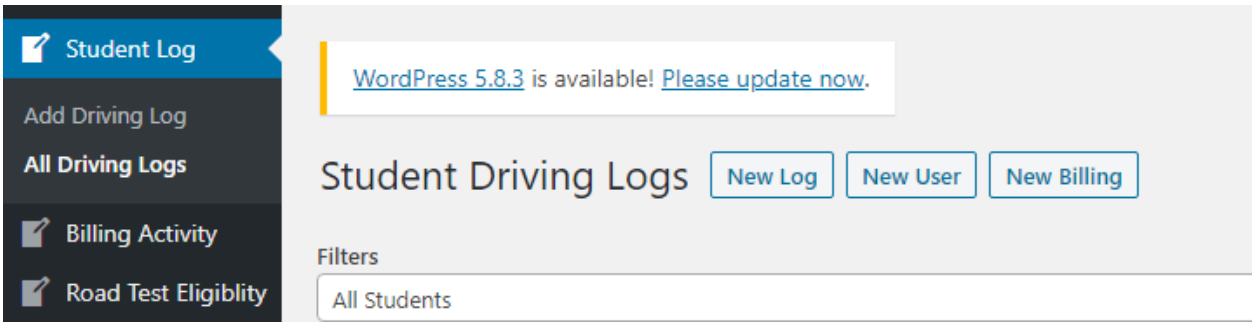
Is it possible to add download button, so student can download the pdf file. Right now they have to take picture. Or maybe email to them

08. Student list:

Under user tab> when we search for students, is it possible to make the way we have in student log?



09. Shortcut link:



Under all driving logs, I can see buttons for new log, new user and new billing.

Can you add the new log and new user buttons to billing activity to all the 3 tabs

10. Report Download in excel:

Driving logs: (10.1)

Filter by: student, instructor, date

Student Name	Date	Total hour	Type	Start	Finish	Car	Per hour	Recvied from Student

Expenses: (10.2)

Date	By: instructor	Location	Discription	Total:	Total GST	Paid by which Card	Which Vehicle	Refference	KM On car

Payroll: (10.3)

Similar as driving logs, there will be option to chose the date “from and to “ but the result will only show how many students gone for driving in that particular time frame, and what is the balance on their account.

see the attached sample below:

when i search for Ian Wheeler, between Jan 5 to Jan 6 how many students he has taken. the results showing everything in details. the result shows, Ian had Paul carlo Limpin 2 times and total hour is: 3:00 hrs (1 hr + 2 hrs).

similarly Francess oko was gone for 2 times too. her total hour is 3 hrs (1:30 hr + 1:30 hr)

Yogeshkumar: 3:00 hrs (1:00 hr + 2:00 hr)

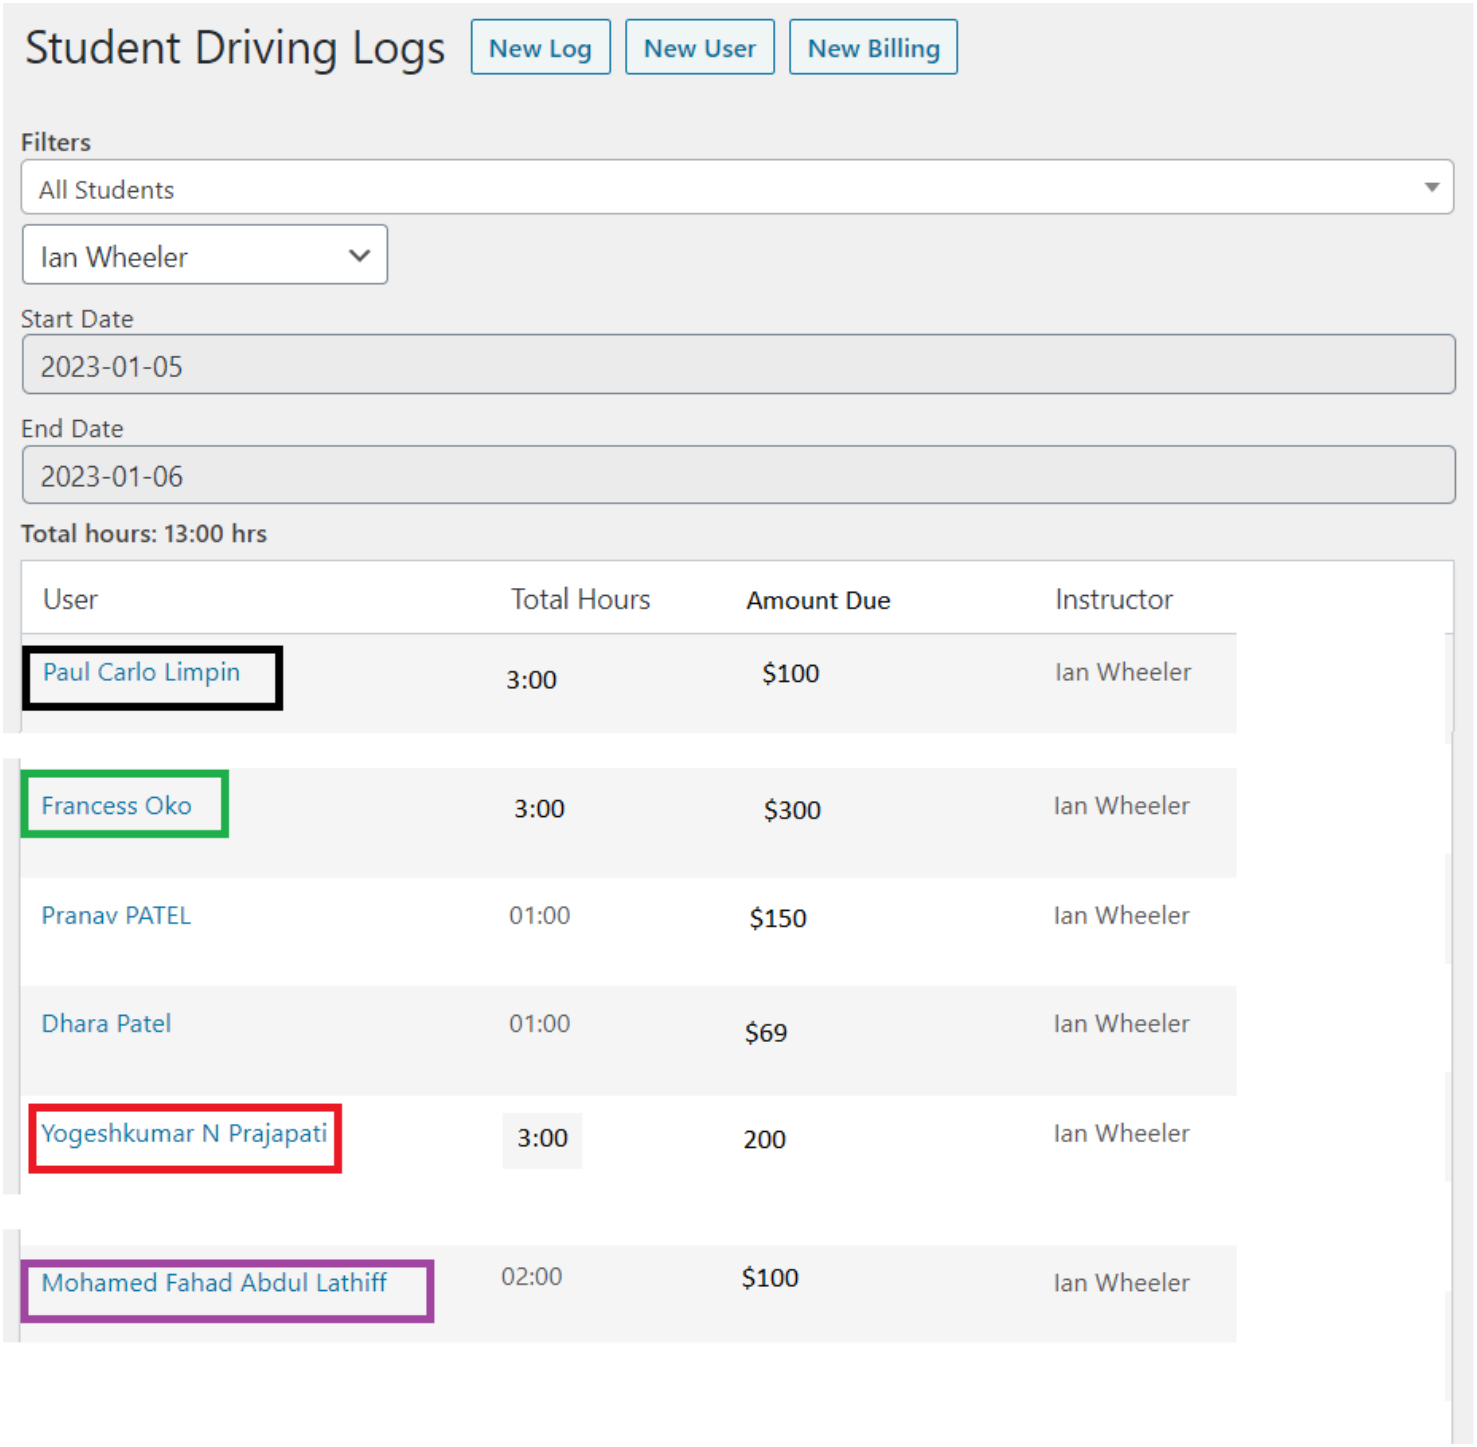
In “Payroll tab” i want to see the result almost same but with less information. all i need to know, how many hours in total and total amount. .

explanation of the picture: between jan 5 to jan 6, Ian wheeler (my instructor) had total hour is 13:00 hr

he had 6 stududents in total,



11. Student tracker:

I'd like to see something visual so i can track student.

	Student name	2 Hrs	4 hrs	6 hrs	8 hrs	Need 2nd Road Test	Comments
0	Student 1						who has done 8 hrs already
1	Student 2						Who has done 1st road test already. Need to go for 2nd road test.
2	Studen 3						Who has done 6 hrs already
3	Student 4						Who had done 4 hrs already
4	Student 5						Who had done 2 hrs already
5	Student 6						Not started yet

12. Account receivable:

there will be 3 category under this tab

Road test done: person who has done the road test but amount is due.

New user: recent registered user.

Old account:

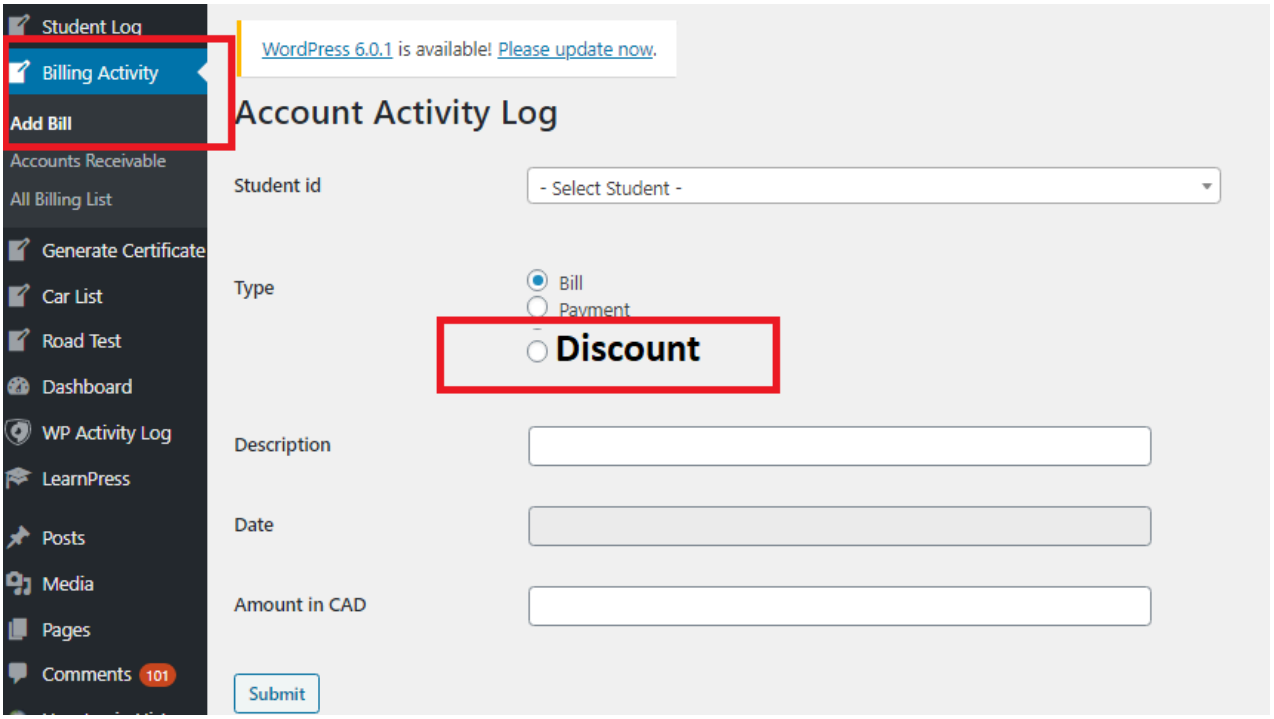
13. Edit logs:

missing: select car, feedback, reviews

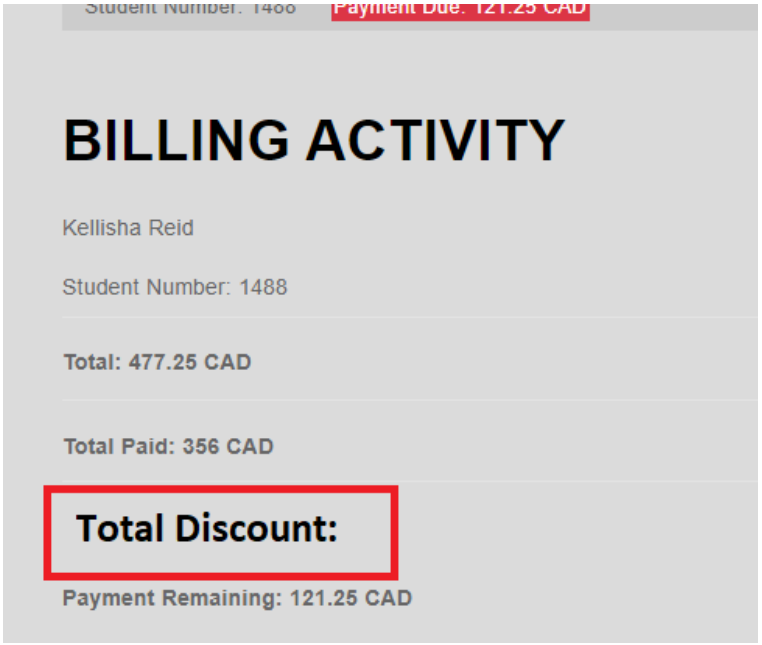
14. Welcome messege:

when student log in to their account, i wanted to show a message there. it will contain mostly updates for website/module. once they read the message, they will close that window.

15. Add discount on billing:



wanted to add the Discount radio button under the billing activity. Discount will work the same way as payment. So the student will be able to see how much discount we have gave them.



16. Student performance report on email:

student receive this report on the email.

we need to check the box to send the email, can we make it default, like when instructor save the driving logs, email will be sent automatically.

Name: saad ahmed

Date: 2022-07-29

Starting and shifting: 10/10
Braking: 10/10
Steering: 10/10
Signal Violation: 10/10
Stop Sign: 10/10
Turning: 10/10
Lane Change: 10/10
Blind Spot Checking: 10/10
Right of way: 10/10
Speed Maintenance: 10/10
Merging on Highway: 10/10
Exit from Highway: 10/10
Roundabouts: 10/10
Reverse Parking: 10/10
Parallel Parking: 10/10

Total Billed Hours : 3

Regards,

SP Driver Training

Can we modify this report.

in the email, after the student name, lets add the pic 1, then pic 2, then rating.

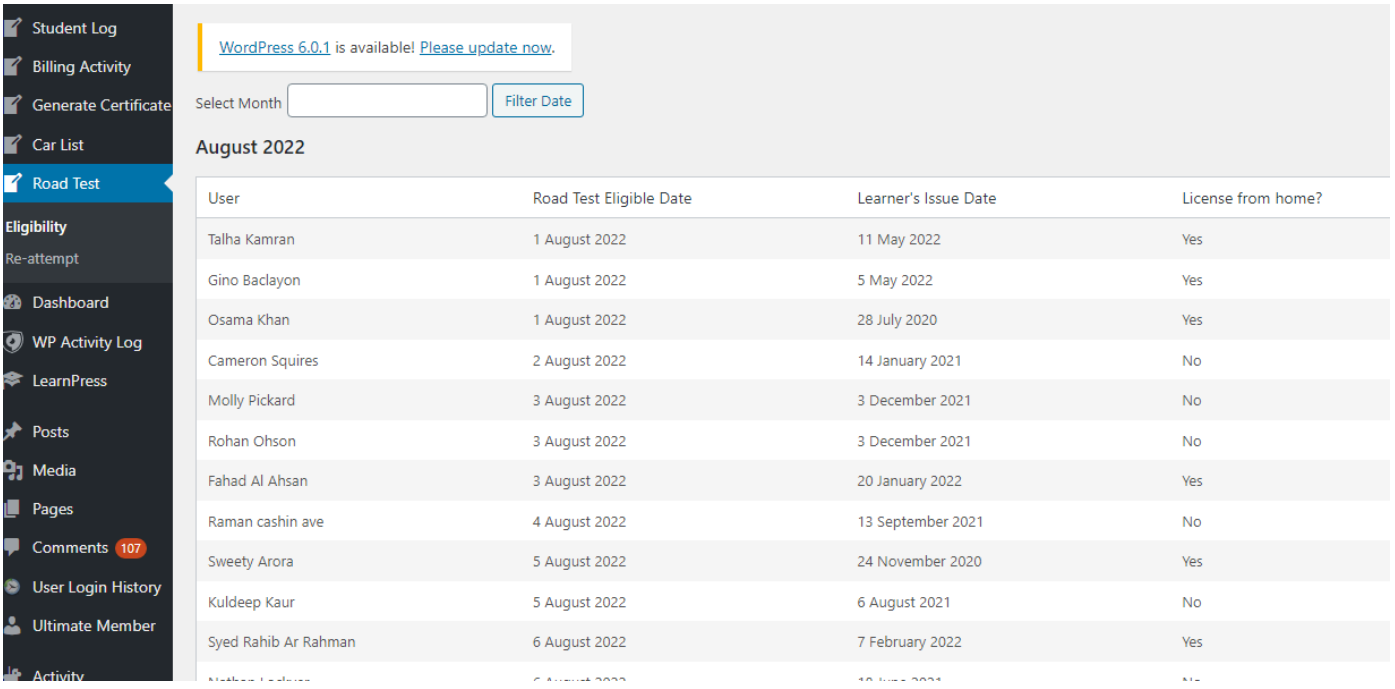
Hours completed:9.5 [09:30]
Remaining hours: 0 [00:00]
Road Tests done: 1
Extra hours: 4 [04:00]

Total Hours completed: 15.5 [15:30]
Extra road test: 1
Total road tests given: 2

Total Payment: 750 CAD
Total Bill: 1219 CAD
View Billing

20. Road test (eligibility) :

Eligibility



Condition 1: road test eligible date: this date is coming from the learners issue date + 8months. I want to modify to learners issue date + 8 months 1 day.

Condition 2: If the eligible date falls into saturday or sunday, that needs to change to monday next.

Condition 3: Regardless which package they are doing, if they have licence from outside canada, then they can go for road test anytime. i want to set their date register date (in my website) + 2 weeks

Link to user profile

also can you please add link to the users name. if i click on the name it will take me to their profile.

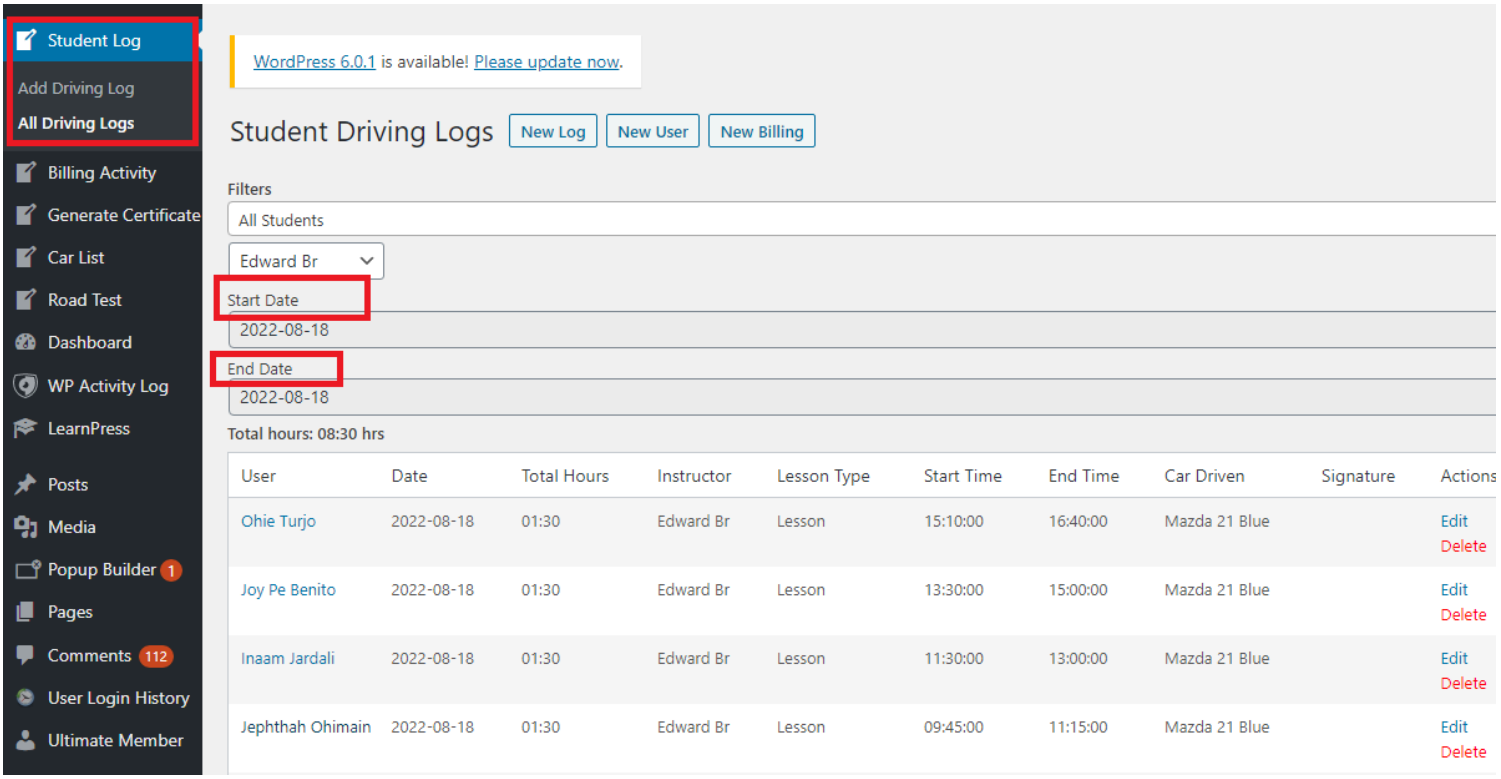
Add one more column

also can you please add which package they are doing (next to learners permit)

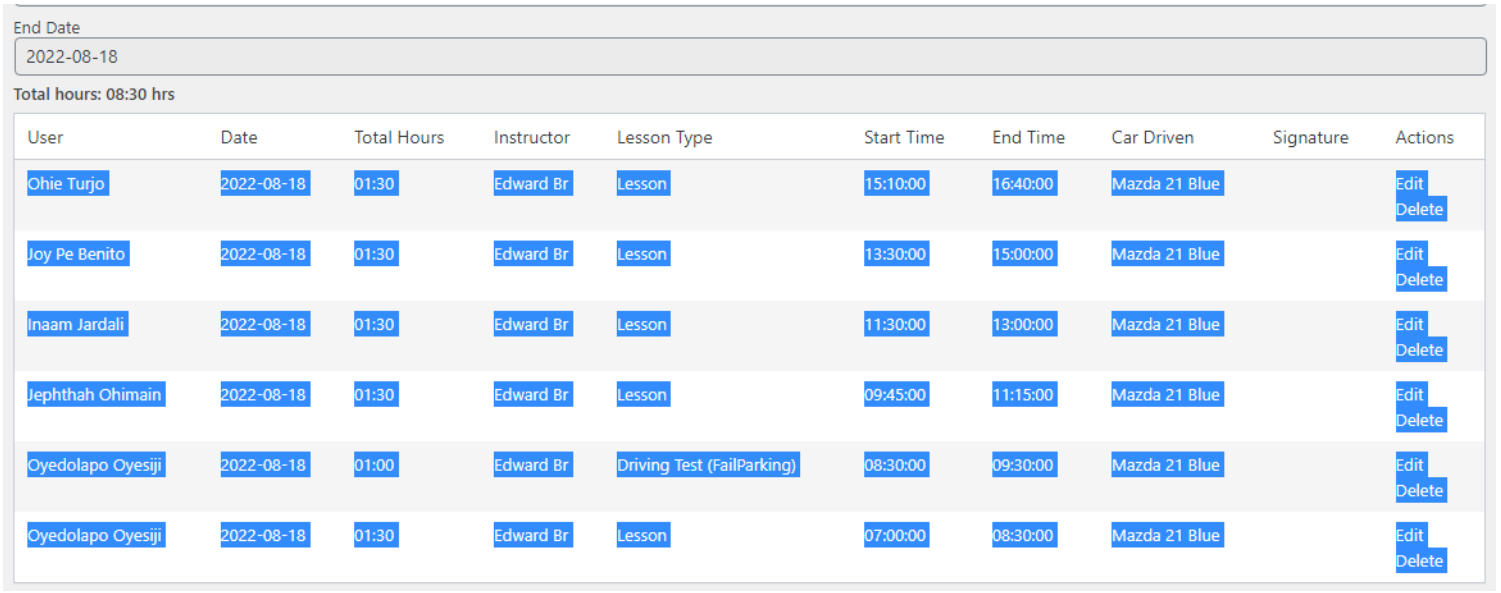
21. Download History:

Problem:

right now we don't have any option to download data. To filter the date, we need to select date “to” and “from” then the data will show up. for payroll and account receivable, i have to download data for each day (for all my instructor)



i'm copying the entire site and paste in my google excel file for payroll.



Solution:

Can you create a download button, so everything will be downloaded to a excel file.

or if you have any idea that i can take.

To go to the next date, i have to select both to and from date. can you add a button somewhere, so when click next, it will load up the next day data. Call me if you need any clarification.

22. show Packages price:

when student register in my website, they have to select a package, currently i have

1. Graduate Certificate Program (GCP) (9.5 hrs + test)
2. Popular package (6 hrs + test)
3. Mini Prep package (4.5 hrs + test)
4. standard/roadtest only (2 hrs + test)

before if a student select GCP, in students profile under billing it used to the amount for this course. later i asked it to remove and started to enter the amount manually. i want to set-it up automatically again.

when you do this part, call me. i will tell you what amount to put.

23. add new:

24. add new:

25. Aws and website:

website: spdrivertraining.com/wp-admin

username: shaifan
